

CORPORATE RESPONSIBILITY

Inside and outside the factory gates

11/05/2020, Arsiero – ITALY

In these troubled times, corporate responsibility means not only taking every conceivable measure to keep your business running – which is crucial – but also helping to support your local area and community.

As we come to terms with the fact that the COVID-19 pandemic has taken away things we took for granted and shaken up our everyday lives, it is only natural for our thoughts to be with the heroic health workers in hospitals.

After contacting the management at Santorso Hospital (near Vicenza) to discuss which essential items they need, the Siderforgerossi Group has donated a portable X-ray machine for use in patients' homes.

The equipment can be used to examine “positive” patients and the fact that it enables X-rays to be carried out in people's homes means that there is no need for them to travel around, which always brings a risk of infection in the community.

The new hospital for the North of the Vicenza area was opened in Santorso in 2012. It has been temporarily converted into a dedicated COVID-19 emergency management centre.

Heartfelt thanks to all of the staff from the “ULSS7 Pedemontana” local health unit from the Siderforgerossi Group. We're keeping our distance but we're by your side.
